

Vision and values

Our vision:

We accept the scientific consensus that:

- global average temperatures have increased since the industrial revolution primarily as a result of burning fossil fuels;
- the world must urgently and drastically reduce greenhouse gas emissions (by 45% by 2030 and to net zero by 2050) to maintain a climate suitable for human civilisation, plus employ strategies for drawing down carbon dioxide already emitted

We demand our local, state and federal governments do their utmost to ensure:

- Australia plays a positive role in international strategies to prevent global temperature increases exceeding 1.5C
- Australia's greenhouse gas emissions are reduced in line with the targets of the Paris Agreement and successive international agreements
- Australia does not approve or allow any new fossil fuel projects for domestic or export purposes
- Our local community is kept well informed on the climate crisis, what impacts they will experience, and the steps each level of government is taking toward both climate mitigation and resilience
- The essential transition to a clean energy future ensures positive economic benefits and opportunities for communities in both our local area and other parts of Australia, particularly those communities most at risk of job loss

Our code of conduct:

Be respectful

- to members of the general public, including political opponents, even if they strongly disagree with your statements or presence
- to other members and supporters - both at face to face meetings / events and online communications - even when you disagree
- to councillors, MPs and all relevant staff

Be inclusive and supportive.

We will not tolerate behaviour, either online or in person, which is:

- rude, aggressive, bullying or violent (towards people or property)
- sexual harassment of any type
- racist, sexist, ageist, homophobic or otherwise discriminatory
- putting anyone else in danger of harm or harassment

Concerns or grievances about any members or supporters behaviour should be raised with committee members in line with grievance policy

Special note on minors

No adult to be left alone with unrelated children under the age of 18 at any events organised by the association.

Our association should endeavour, where possible, to be allies of local children and young people fighting for their future, while supporting them to lead their own organisation/s and strategies.
